Transitional Bilingual Education (Transitional Bilingual Education) provides a program that helps students who speak English as a Second Language (ESL) during their transition to Mainstream English programs. This program is designed to support students in becoming proficient in English while they continue to learn other subjects. Students participate in a bilingual education program where they receive instruction in English and their native language. The teacher provides instruction in English while the student's native language is also supported. This program is targeted towards students who need additional support in English language development.

The program includes the following components:
- **Language Proficiency:** Students receive instruction in English and their native language.
- **Cultural Competence:** Students are exposed to their cultural heritage and the cultures of their new community.
- **Academic Achievement:** Students are provided with academic support to ensure they meet grade-level expectations.
- **Social-Emotional Development:** Students receive support to develop social-emotional skills.

This program is designed to help students transition smoothly to Mainstream English programs by providing a supportive and inclusive learning environment.
