Dear Mr. Rodriguez:

This letter is in response to your request for information under the Illinois Freedom of Information Act. Your request was received on Sept. 5, 2013.

You have requested the following data: “1. A breakdown by race and ethnicity of the 3,674 individuals who have used their ACT score of 22 or better in lieu of TAP since July 2012. 2. A breakdown by race and ethnicity of the 537 individuals who took the ACT + Writing since July 2012 and have used their 22 or better score in lieu of TAP. 3. A breakdown by race and ethnicity of the 160 individuals who have used their SAT score of 1030 in lieu of TAP since July 2012. 4. A breakdown by race and ethnicity of the seven individuals who took the SAT since July 2012 and have used their composite score of 1030 in lieu of TAP. 5. A breakdown by race and ethnicity of all additional persons, in addition to the 3,674 for ACT and 160 for SAT mentioned above, who have used a 22 or better ACT score or a 1030 SAT score since the data above was provided by ISBE in late May 2013. 6. Quarterly posting on the ISBE website of these data on individuals using a 22 or better score on ACT + Writing and a 1030 score on SAT in lieu of TAP, broken out by race and ethnicity.”

Please note that our agency does not collect information regarding race and ethnicity for the ACT Plus Writing or SAT nor do the testing companies provide us with this information. Therefore, we have no documents responsive to your request.
