High School Students Taking Community College Courses  
School Year 2011-2012 Report

To comply with Section 2-3.144 of the Illinois School Code, as well as with sections 10-21.4 or 34-8, high school and unit district superintendents are required to complete and submit to the Illinois State Board of Education an annual survey that documents the number of high school students taking community college courses and the names of the courses taken.

For school year 2011-2012, 382 high school and unit districts completed and submitted the High School Students Taking Community College Courses survey from April through September 2012. Among these reporting districts, 86 districts reported that no students took community college courses and the remaining 296 districts reported that 27,767 students took courses offered by the community colleges. Of the 624,994 high school students included in the 2011-2012 fall enrollment counts, approximately 4.4 percent took courses offered by the community colleges. Appendix A provides data on the number of students, by gender and race/ethnicity, in each of the districts where students enrolled in community college courses.

High school and unit districts reported a total of 47 Illinois community colleges that offered courses to their students in grades 9 through 12. The number of high school students who took courses from these community colleges ranges from 10 students at the Kennedy-King City College in Chicago to 5,769 students at the Joliet Junior College in Joliet. Among the 47 community colleges, approximately 36 percent (17 colleges) offered courses to more than 500 high school students. Eight community colleges, including five of the seven Chicago city colleges, Wabash Valley College in Mt. Carmel, South suburban College in South Holland, and Triton College in River Grove, offered courses to fewer than 100 high school students during school year 2011-2012. Appendix B lists these community colleges and the number of enrolled high school students by gender and race/ethnicity.

There were 29 community college courses taken by 27,767 high school students, with many of the students taking more than one course. Therefore, districts recorded 41,266 course enrollment counts for the 29 courses. The number of students taking each of these courses ranges from 1 student taking the library science course to 6,709 students taking the English language and literature course. Approximately 59 percent (17 courses) of the 29 courses served more than 500 high school students each; five courses were taken by fewer than 60 total students. Appendix C lists the course names and the number of enrolled high school students, by gender and race/ethnicity.

For further information regarding high school students taking community college courses, please contact Ms. Niann Chern in the ISBE Data Analysis and Accountability Division at 217/782-3950 or nchern@isbe.net.
