

## ideallygreen<sup>SM</sup> Solutions for Your Facility and the Environment

We're partnering with you and U.S. Communities<sup>SM</sup> to create a greener, more sustainable future. Through our ideallygreen initiative, we're focused on decreasing your environmental impact while having a positive effect on your operational costs. As your partner, we support you with practices and products to achieve your goals.

### Practices

Our commitment to sustainability extends to providing ideas and recommendations for how to reduce your impact on the environment. To learn more about sustainable practices, look for environmental practice tips in our catalogs, such as:

- 1 Exit signs with LED bulbs use 85% less energy than incandescent bulbs and burn 72 times longer. An LED bulb lasts 25 years while an incandescent bulb lasts about 4 months.
- 2 Sealing the gaps below exterior doors can save up to 15% in heating and cooling costs.

### Products

We have a broad selection of environmentally preferable products to help you go green and reduce operating expenses. You'll find solutions to lower your facility's utility bills and control energy expenditures.

### How to Find Green Products Fast

Look for this icon  in our catalogs and online to identify environmentally preferable product choices. To find sustainable products fast, turn to the Sustainable Product Index, starting on page 1699 in catalog V60. To search for ideallygreen products online, visit [hdsupplysolutions.com](http://hdsupplysolutions.com), enter "ideallygreen" in the search field, and view the results by category.

### We Offer Products in 5 Key Areas:

 <p><b>Energy Efficiency</b></p>	 <p><b>Water Conservation</b></p>	 <p><b>Indoor Environmental Quality (IEQ)</b></p>	 <p><b>Waste Reduction</b></p>	 <p><b>Hazardous Material Disposal</b></p>
--	--	--	--	---

Improve indoor air quality for guests and employees by using ideallygreen low VOC products, which are free of caustics, chlorine, and harmful chemicals.

HD Supply's Lighting Services has helped customers save thousands of dollars annually on their electricity bills with comprehensive energy-efficient lighting retrofits.

**Want even more savings? Ask your sales representative about our Lighting Services, or call 1-866-455-4798.**

### ideallygreen Renovations

Thinking about renovating your property? Then consider our wide selection of ideallygreen products to help you meet requirements to reduce energy and water usage. Whether you are making minor upgrades or major improvements, we have the products and knowledge to make your renovation a success.

We partner closely with you to:

- Assess your renovation needs
- Generate a renovation plan
- Improve ROI with ideallygreen solutions
